# Gear table

Designed with rotating gears and revving with style, these high-performance lamps were made for the fast lane. Like changing gears in a car, the positions of the shades are changed manually by adjusting a lever. Gears inside the base lock into place with each adjustment of the shades. The floor lamp extends dramatically forward to position its shade overhead, while the table lamps illuminate the surfaces around them. All three versions are crafted in aluminium and steel, giving the lamps crisp outlines and an industrial look. Coloured in matt black, the lamps provide a potent contrast to light-coloured backgrounds, or create a compelling focal point within any interior.

# Needle Pvc Wallpaper

Light vapours, soft orchids, tender cherry blossom, bamboos and climbers, English roses, lilies and bouquets, wildflowers in a gentle light blue haze. It will be like going into a garden in flower. Carpets of dry leaves, in amber and red tones, but also transparency and overlapping which creates part of the decor, slipping into an authentic autumn panorama, or transforming itself into structured, geometrical patterns. Butterflies, humming birds, sinuous carp and fish, elephants, pink flamingos, giraffes, toucans in enchanted forests: a corolla or carioca of motifs linked to oriental worlds. Bright colours on pastel backgrounds and antiqued tones, at times in graded shades to give original and harmonious nuances.
